Claim for Travel of Dependents -

REFERENCE: DIR 16048

25X1A9a

1. As reported in reference, the claim of [REDACTED], arising out of the travel of his dependents to the United States in 1953, was submitted to the Inspector General on 2 September 1954. Attached is the finding of the IO.

25X1A6a

2. You will note in the last paragraph of the attached memorandum that the IO asks the question whether the passage of time between the travel by [REDACTED] dependents and any possible home leave which he might take would affect his right to recover for half the cost of his dependents travel. We have checked this point with the General Counsel, and are advised that the lapse of time does not change the situation. [REDACTED] may still travel to the United States on home leave, and by doing so recover half the cost of the trip made in 1953 by his dependents. However, [REDACTED] has now completed about three years of overseas service and, if he should come home alone on home leave, he would necessarily begin a new tour of duty on his return to [REDACTED], extending his total stay there to slightly more than five years. This is a factor both [REDACTED] and the Mission would want to consider before any decision is made that he should accept the option of returning to the United States at this time on home leave.
